

Specification of the Apartments at Bowlee Park

Construction

The apartments at Bowlee Park are constructed from brick and block with cavity wall insulation. Ground floors are timber or in situ concrete with first floors being precast concrete beam and block.

Comfort and Security

Gas fired thermostatically controlled central heating via condensing combination boiler. Locking high performance double glazed uPVC windows. BS 5 lever mortice lock to front and rear doors. Security system with door sensors and passive detectors to NACOSS standards. Smoke detectors.

Kitchens

Will be highly sophisticated incorporating a range of floor and wall cabinets from a selection of styles and colours (subject to build stage). Single bowl sink and tap. Integrated within the kitchen will be a stainless steel single oven, gas hob and chimney extract hood. Vinyl flooring. Feature tiling between worktop and underside of cupboards.

Finishing Touches

Moulded skirting board and architrave. Panelled internal doors with polished chrome lever furniture. Carpets to all rooms except wet rooms, which will receive vinyl flooring.

Paintwork

External paintwork and internal skirting and architrave finished in white gloss. Plastered walls and ceilings finished with matt emulsion.

Bathrooms

Stylish white sanitaryware with chromium plated taps. Glazed shower screens to bath with electric shower over. Half height tiling generally to two walls around bath, full height at shower end, and splashback behind basin.

Electrical

TV and BT points to lounge and master bedrooms. Switch and wiring for front and rear lights. Doorbell push and chimes.

External

Turfed front and rear gardens. Driveway to selected units. New fascias, soffits and rainwater goods.

This specification is for general guidance only and purchasers are requested to satisfy themselves fully of the specification applicable to the home of their choice before reservation.
